Experience

Courses & Learning Materials
2022

- **Helsinki University - Full Stack open 2021**
  Ongoing

  The main focus of this course is on building modern single page applications with ReactJS that use REST APIs built with Node.js...

- **PHP - The Right Way**
  Ongoing

  "...PHP: The Right Way is an easy-to-read, quick reference for PHP popular coding standards, links to authoritative tutorials around the Web and what the contributors consider to be best practices at the present time."

Front-End Projects
2021-2022

- **Display Json**

  This is simple front-end app, that takes data from database and displays it as a list.

- **Github Profiles**

  This was an internship assessment task from Omedia. The task challenged my coding skills a lot and I learned much by doing it!

- **Quiz App**

  An entertaining game of general education that is completely user modified. Test questions are received by fetching Trivia API. This was an internship assessment task from Sweeft Digital and writing this app was a great experience!

- **Pomodoro Timer + Tasks**

  This is productivity app, that helps people to focus on a single task. They plan breaks and distractions, that make them accountable by stating what they're working on and establishes a routine and rhythm in their life.

- **Drum Machine**

  Electronic musical instrument that was built for fun, for playing hip hop, house or metal melody drum kits.

- **Other Projects (freeCodeCamp Portfolio)**
